

K&I HOMES, LLC

CUSTOM HOME DESIGN
BEYOND IMAGINATION

“First we shape our buildings, thereafter they shape us
(Winston Churchill)

Our intention is to create living spaces that embrace, energize and inspire people. To create buildings of beauty and integrity, true to form and function, timeless design and enduring quality.

We are on a mission to carry out this intention by utilizing our vast knowledge and experience in the field of Architecture and Interior Design.

We provide a wide range of Design and Construction Services for all kinds of places people call HOME. We can put the OM back into your HOME.

The end pre-exists the means. It is our job to discover the desired end result and then help bring it into manifestation (in a backwards motion from a place where it already exists).

Our desire is to Live our lives to the fullest, Learn as much as we can, have fun, Love and leave a Legacy.

MISSION STATEMENT

“The thing I learned is that you don’t invent your mission – you detect it”

(Victor Frankl)
